150S  
150L

Model 150L Long Traditional Panel with Optional Sunset 601 Window Design

*At Clopay, we're building the next generation of garage doors with a patented, finger-protection design that is unlike any other garage door on the market today. This innovative design helps make our doors the safest on the market; however, that's just the beginning. We've added even more details that continue the long Clopay tradition of building garage doors that are beautiful, reliable and durable, and we back it with an extended hardware warranty. Our next generation Value Series offers more than any other garage door in its class. That's why we're right at home...on your home.*

Beautiful. Durable. Reliable.

## 150S 150L

### UNSURPASSED BEAUTY INSIDE AND OUT

Your garage door can account for as much as 40% of your home's curb appeal. Shouldn't it be as beautiful as the rest of your home?

- Available in two beautifully detailed panel styles: short (Model 150S) and long (Model 150L), with a natural woodgrain door texture to complement your home's design.
- White painted interior stiles for a finished, neat appearance inside your garage.
- Available in four finished painted exterior colors or you can paint your door to match your home's trim.
- Carefully crafted details, including color-matched step plates.

Model 150S Short Traditional Panel Design

### PANEL STYLES AND COLORS

Short Panel (Model 150S) White

Long Panel (Model 150L) Almond

Brown

Sandtone

Both panel styles are available in all four colors

### DURABLE CONSTRUCTION; RELIABLE OPERATION

#### Galvanized Torsion Spring

Corrosion-resistant, long-lasting galvanized torsion springs offer up to a 50% longer cycle life than industry standard springs.

Due to some height and weight restrictions, not all product offerings include galvanized torsion spring.

#### Unsurpass Rust-Resistant Surface

Steel skins are protected through the use of a tough, layered coating system, including a layer of hot-dipped galvanizing, a protective metal oxide pretreatment, and a baked-on primer and top coat.

#### Heavy Duty 25-gauge

Steel construction and nylon rollers help assure long-lasting, quiet operation.

### PROTECTION FROM ACCIDENTS AND THE ELEMENTS

Our Safe-T-System® provides unsurpassed protection from accidents and the elements, including a unique finger-protection joint that is engineered to help push fingers out of harm's way. The complete line of Safe-T-System® features makes our next generation doors the safest on the market. (\* Indicates optional features.)

1

#### Clear Weatherstop® Joint Seal

This patented design is a Clopay exclusive and provides additional protection from air infiltration and rain.

2

#### Safe-T-Hinge®

Helps prevent finger pinching on the inside of the door.

3

#### Safe-T-Roller®\*

Covered roller that helps prevent fingers from being caught in the track.

4

#### Safe-T-Track®\*

Creates a barrier that helps prevent insertion of a finger or hand into or behind the track.

5

#### Safe-T-Bracket®

Helps prevent serious injury that could occur if the bottom bracket were removed with the garage door closed and under tension.

6

U-shaped vinyl weatherseal slides into rust-proof aluminum retainer for protection against the elements.

In the interest of better quality and value, we are continually improving and updating our products. Consequently, photos and illustrations may sometimes differ from present models.
